Serbian Hernia Society

Workshop

Modern hernia surgery of antero-lateral abdominal wall - open or laparoscopic approach

Arandjelovac 1.- 2.04.2016

First day 1.04.2016

08.00-09.00 **Registration**

09.00-13.00 **Live Surgery** (General hospital Arandjelovac)

1. Inguinal hernia repair with Lichtenstein technique under local anesthesia in ambulatory settings

Prof dr Marinko Žuvela, *School of Medicine University of Belgrade, Serbia*

dr Predrag Bojović, *Clinical Hospital Center „Zvezdara“ Belgrade, Serbia*

2. Inguinal hernia repair with PLUG T2 mesh under local anesthesia in ambulatory settings

Prim dr Dejan Dabić, *General hospital Čačak, Serbia*

3. Inguinal hernia repair with TAPP technique under general anesthesia

dr Bojan Radovanović, *General hospital Požarevac, Serbia*

4. Inguinal hernia repair with TEP technique under general anesthesia

dr Bojan Radovanović, *General hospital Požarevac, Serbia*

5. Large inguinoscrotal hernia repair with Rives technique performed through direct inguinal approach under spinal anesthesia

Prof dr Marinko Žuvela, *School of Medicine University of Belgrade, Serbia*

13.00-14.00 **Coffee and lunch break**

First day lectures-Winery Aleksandrović

- 15.00-15.10 **Welcome speech**
dr Bojan Radovanović(President of SHS) ,dr Jovan Pikula(General Hospital Arandjelovac)
- 15.10-15.25 **Ambulatory hernia surgery in General hospital Arandjelovac**
dr Jovan Pikula,General hospital Arandjelovac,Serbia
- 15.25-15.40 **Local anesthesia in abdominal wall hernia surgery**

Prim dr Dejan Dabić, *General hospital Čačak, Serbia*
- 15.40-15.55 **Lichtenstein tension-free mesh hernia repair-past,present and future**
dr Predrag Bojović, *Clinical Hospital Center „Zvezdara“Belgrade, Serbia*
- 15.55-16.10 **Open inguinal hernia repair-Lichtenstein technique**
Prim dr Vladimir Cijan, *Zvezdara Clinical Center, Belgrade*
- 16.10-16.25 **HERNIAMESH products presentation**
Scivolleto Andrea,Herniamesh,Italy
- 16.25-16.40 **Laparoscopic inguinal hernia repair-TAPP technique**
dr Bojan Radovanović, *General hospital Požarevac, Serbia*
- 16.40-16.55 **Laparoscopic inguinal hernia repair-TEP technique**
dr Bojan Radovanović, *General hospital Požarevac, Serbia*
- 16.55-17.10 **Rare late complications following Prolene Hernia System inguinal repair**
Prof dr Marinko Žuvela, *School of Medicine University of Belgrade, Serbia*
- 17.10-17.25 **Complications in laparoscopic inguinal hernia repair**
dr Bojan Radovanović, *General hospital Požarevac, Serbia*
- 17.25-17.40 **Hernia Center-Belgrade experience**
Prim dr Vladimir Cijan, *Zvezdara Clinical Center, Belgrade*
- 17.40-17.55 **Laparoscopy vs.Lichtenstein in inguinal hernia repair**
Prof dr Marinko Žuvela, *School of Medicine University of Belgrade, Serbia*
- 17.55-18.10 **District general hospital experience-is it expensive always better**
Prim dr Dejan Dabić, *General hospital Čačak, Serbia*
- 18.10-19.00 **Winery Aleksandrović presentation**
- 20.00 **Diner**

Second Day 2.04.2016

09.00-13.00 **Live surgery** (General hospital Arandjelovac)

1.Umbilical hernia repair with PLUG technique under local anesthesia in ambulatory surgery

Prim dr Dejan Dabić, *General hospital Čačak, Serbia*

2.Epigastric hernia repair-”Open Preperitoneal Flat Mesh Technique” under local anesthesia in ambulatory settings

Prof dr Marinko Žuvela, *School of Medicine University of Belgrade, Serbia*

3.Incisional hernia repair with Rives sublay technique under general anesthesia

Prim dr Vladimir Cijan,*dr Predrag Bojović, Zvezdara Clinical Center, Belgrade, Serbia*

4.Abdominal wall eventeration repair:various components separation techniques with mesh augmentation(Rives sublay or Chervel onlay technique)

Prof dr Marinko Žuvela, *School of Medicine University of Belgrade, Serbia*

5.IPOM technique with Relimesh for incisional hernia repair

dr Bojan Radovanović, *General hospital Požarevac, Serbia*

Prim dr Dejan Dabić, *General hospital Čačak, Serbia*

13.00-14.00 **Coffee and lunch break**

Second Day-lectures

Winery Vrbica

- 15.00-15.15 **Ambulatory surgery of ventral hernias: umbilical and spigelian hernia repair-operative strategy**
Prof dr Marinko Žuvela, *School of Medicine University of Belgrade, Serbia*
- 15.15-15.30 **Open incisional hernia repair – Rives sublay technique**
Prim dr Vladimir Cijan, *Zvezdara Clinical Center, Belgrade*
- 15.30-15.45 **Are there any differences in outcome of incisional hernia repair by (sublay) mesh implantation depending on the place of the previous laparotomy?**
dr Predrag Bojović, *Zvezdara Clinical Center, Belgrade*
- 15.45-16.00 **HERNIAMESH products presentation**
dr Miroslav Jevtić. *ECO Trade*
- 16.00-16.15 **Laparoscopic incisional hernia repair – IPOM technique**
dr Bojan Radovanović, *General hospital, Požarevac, Serbia*
- 16.15-16.30 **IPOM technique – first experience with Relimesh**
Prim dr Dejan Dabić, *General hospital Čačak, Serbia*
- 16.30-16.45 **Complex abdominal wall closure: Various components separation techniques with or without mesh reinforcement**
Prof dr Marinko Žuvela, *School of Medicine University of Belgrade, Serbia*
- 16.45-17.00 **Management of complications after laparoscopic ventral and incisional hernia repair**
dr Bojan Radovanović, *General hospital, Požarevac, Serbia*
- 17.00-17.15 **Management of complications after open ventral and incisional hernia repair – vacuum assisted closure therapy of patients with infected mesh following hernioplasty of complex abdominal wall defects**
Prof dr Marinko Žuvela, *School of Medicine University of Belgrade, Serbia*
- 17.15-17.45 **Closing ceremony**
- 18.00 **Diner**
